His Excellency BENIGNO SIMEON C. AQUINO III
President of the Philippines
Malacaŋang Palace, Manila

Through: **Honorable PATRICIA B. LICUANAN**
Chairman
Commission on Higher Education

Dear President Aquino,

It is my pleasure to present to you Tarlac State University's annual report for the calendar year 2012.

This report showcases the various efforts and accomplishments of the many individuals and different delivery and service units of the University. They have contributed significantly to support the mission, vision and goals of the University.

This year, TSU embraced the trying moments with optimism that more phenomenal outputs are in the offing which could be translated to inspirational masterpieces credited to the hardworking faculty, personnel and students of this University.

It is our hope that this report gives inspiration to anyone who reads it.

Respectfully yours,

PRISCILLA C. VIUYA, Ph.D.
President

This Annual Report confirms the valuable responses of committed individuals whose genuine humanity service is a ladder to a meaningful life as well.

CONTENTS

FOUNDED in 1906

A chartered state university with over one hundred years of educational service to the people of Tarlac and the entire region of Central Luzon

Its humble beginnings started as an elementary trade school in 1906 to a secondary school in 1919, progressed into collegiate technical school (Tarlac School of Arts and Trades) in 1959, to a full fledge college (Tarlac College of Technology) in 1965 and finally, became a university on October 13, 1989 by virtue of Republic Act 6764.

HISTORY

Being the premier center of learning in the province of Tarlac, the beginning of the Tarlac State University (TSU) are synchronous with the beginning of public education in this heartland of Central Luzon and the whole of the Philippines. The early and dominant image of TSU among the people of Tarlac as it started as a vocational department of the Tarlac Provincial High School founded in September 1, 1902 by Mr. Frank Russel White, the first of this kind in the Philippine educational system. It then separated as a Trade School and its origin as such could be traced to as early as 1906, when the director of public instruction mandated the offering of intermediate grades and selected areas in the country to cater to industrial and vocational courses.

Casa-Real de Tarlac, later used by President Emilio Aguinaldo when Tarlac became the revolutionary capital in 1899. It is now the site of TSU's College of Computer Science.

Tarlac Trade School, 1906-1959

In 1909, under the auspices of the provincial government and the Provincial High School, this school began to include secondary students in its fold. By 1921, it had evolved into a full secondary school. In 1931, the trade school was annexed to Tarlac High School during the principalship of Russel Taylor – a status it maintained until the onset and the end of the Second World War.In 1946, immediately after the war, Tarlac Trade School was officially separated from the Tarlac High School, with the appointment of Manuel T. Espinosa as its principal.

The Manual Training Building of Tarlac Trade School, 1910

Tarlac School of Arts and Trades, 1959-1965

More than a decade later, in 1959, the Congress of the Philippines approved House Bill 1006, jointly sponsored by then Congressmen Constancio Castañeda and Jose Roy, converting Tarlac Trade School into Tarlac School of Arts and Trades (TSAT); with Mr. Espinosa also becoming its first Superintendent. As a nationalized academic institution, TSAT began to offer collegiate technical education courses in the province.

Tarlac College of Technology, 1965-1989

In 1965, through the passage of Republic Act 4337, TSAT acquired its full-fledged status as a college, the Tarlac College of Technology (TCT). Among other provisions, the law called for the merging of TSAT with Tarlac National Agricultural School (TNAS, now Tarlac College of Agriculture, TCA) in Camiling, Tarlac. Dr. Mario Manese was appointed as its first president (1965-1972), who introduced the courses teacher education and engineering.

Prof. Jack Smith replaced Dr. Manese in 1972 as TCT President. It was his early tenure when Presidential Decree 609 was mandated in 1974, which instructed the separation of TCT from its agricultural component, which became the present Tarlac College of Agriculture in Camiling. Smith's lengthy stay in TCT saw its expansion as a state college, particularly with the acquisition of a 10-hectare lot in Barrios Ungot and Maliwalo that came to be known as Lucinda Campus and which eventually became the site of the Laboratory School and various agro-industrial projects of the institution.

In 1976, the TCT organized the Graduate School with academic programs leading to the degrees of Master of Arts in Education, with majors in Guidance in Counseling and Educational Management. In 1978, the TCT set-up degree programs in Master of Public Administration, Bachelor of Science in Business Administration, and the revised two-year Trade Technical Education, and in 1983, the Bachelors of Science in Architecture and Elementary Education.Dr. Ernesto Cosme was designated Officer-in-Charge in September 1984, eventually becoming TCT's third and last president.

Tarlac State University, 1989 – present

It was during President Ernesto O. Cosme's administration that R.A. 6764 was signed into law by then President Corazon C. Aquino on October 13, 1989, converting TCT into Tarlac State University (TSU); thereby serving as its acting president. The conversion was made possible through the sponsorship of Tarlac's three congressional district congressmen namely, Jose Cojuangco Jr., Jose Yap and Herminio S.Aquino. Dr. Cosmes's stay in both the TCT and TSU saw the further expansion of the physical structure and academic programs. Modern buildings rose on the 1.2 hectare Main Campus and the 10 hectare Lucinda Campus. Additional programs were opened, such as Doctor of Education Management in Consortium with the Technological University of the Philippines (TUP), Bachelor in Secondary Education, Bachelor of Science and Accountancy, Business Administration major in Entrepreneurship, Chemistry, and Bachelor of Arts and Social Sciences.

On August 08, 1990, the TSU Board of Regents appointed Dr. Alejandro Fernandez, then Professor of Political Science and Ninoy Aquino Professor of Development in the University of the Philippines, as the first president of TSU. During this time, TSU was able to acquire its more than eight hectares for a third campus in San Isidro under a 50-year lease contract with the provincial government. Upon the end of the term of Dr. Fernandez, Dean of Graduate School, Dr. Priscillla C. Viuya, was appointed as OIC of TSU effective February 28 up to mid-September 1994.

On September 14, 1994, Dr. Rodolfo Y. Baking, from the Technological University of the Philippines, was appointed by the BOR as the second president of the University. Like his predecessors, his administrative policies were geared towards the upgrading of academic standard and the offering of curricular programs that will cater to the development needs of the government and the private sector. Unfortunately Dr. Baking was not able to finish his term.

On December 5, 1996, the Board designated Dr. Dolores G. Matias, then the VP for Academic Affairs, as the Officer-In-Charge. On March 24, 1998, Dr. Matias was formally appointed as the Third President of TSU. During her incumbency, the Graduate School and College of Business and Accountancy attained level-two accreditation while the Colleges of Arts and Sciences and Education attained level one accreditation. The College of Engineering, which already had a level-one accreditation, was proposed for the next level accreditation. The Colleges of Technology and Architecture were readied to undergo the same process. During this time, passing average in the board examination of the graduates improved. Other courses were opened like B.S. in Computer Science, Bachelor of Fine Arts, and Doctor of public Administration. The Ed. D. major in I.E.M. was continued to be offered by the University on its own, now without the consortium, while another major, educational management, was added to the Ed. D. program.

On her term, TSU enjoyed the laurels on its cap as it became a Center of Development in Electrical Engineering due to the high performance of its graduates in the board examinations with a 3rd place board topnocher, BSBA placed 3rd the Accountancy licensure exam, and BSEd placing 1st in the Teacher's Board. Programs were offered such as Doctor of Public Administration (1998), AB Theater Arts (1999), AB Journalism (1999), BS Nutrition and Food Technology (2000), BS Electronics and Communication Enginering (2002), Curricular programs were continuously developed and upgraded.

In 2001, a streamlined organization structure made and implemented as soon as Dr. Matias assumed into office resulted in a functional and revitalized university organization. The Testing Center was institutionalized and evening classes were organized. Additional classrooms and university facilities were also built and the students were accorded a function room and added space for their use to serve the steadily increasing student population.

On March 26, 2006, Dr. Priscilla C. Viuya was appointed as the Fourth President of the University. Taking her initiatory stride from the contributions of her predecessors, she led TSU to the growing demands and standards of tertiary education in the country and the world. With her at the helm, a number of colleges were created, including the College of Human Kinetics (2006) and the College of Law (2007). In turn, the existing colleges have been beefed up with new curricular offerings and programs, both in the undergraduate and graduate levels, including B.S. in Hotel and Restaurant Management and Doctor of Philosophy in Business Administration (under the College of Business Administration and Accountancy), Criminology, (College of Arts and Social Sciences) and Master of Arts in Education, with majors in pre-School Education and Guidance and Counseling (College of Education).

TSU has also achieved international status with the opening of courses and linkages with higher educational institutions around the Asian continent. With its expanded International Affairs program, it is now catering to respective students from its South Korea, Hong Kong, Taiwan, Vietnam, China, India and Malaysia partnerships. Its international affiliation includes the Association of Universities of Asia and the Pacific (AUAP), Asia University Federation (AUF), and International Association of Universities (IAU) which is a unit of the United Nations Educational, Scientific and Cultural Organization (UNESCO).

Not forgetting the Tarlac home ground, President Viuya was also responsible for the opening of TSU campuses in the towns of Victoria, Pura, and La Paz, in MOA with respective LGUs. This paved the way for TSU-LGUs partnership being supported by the Tarlac Provincial Government which is keen on expanding the program to other municipalities in the days to come.

Most of the curricular offerings of TSU have already undergone accreditation, making the University the 6th best performing SUCs (State Colleges and Universities) in the country, as assessed by AACCUP (Accrediting Agency of Chartered Colleges and Universities in the Philippines). TSU has among the biggest percentage of accredited professors and meritorious ranking in NBC evaluations, with great faculty representation in national and international conferences and trainings in instruction, research and extension, including Fulbright and other programs. Thus, in the assessment of the Commission for Higher Education, TSU is now among the best performing SUCs in the country.

It was also during President Viuya's term that TSU achieved an ISO (International Organization for Standardization) 9001 certification, through the University Extension Office in 2008. The University has become also the training centers for the K+12 programs of the Department of Education and the Wireless Assessment for Health Programs. In partnership with the Eduardo Cojuangco Foundation and the University of St. La Salle, TSU was the home of the PROJECT-FREE program that offered scholarship in master and doctoral programs to more than 2,000 public school teachers of Tarlac. With many publications and researches, TSU has become a center for local history and culture.

Its emergence as a leading university in Central Luzon, TSU opened its doors to hosting national and international conferences and seminars. Annual gathering of the International Education Conference (IEC) is now on its fifth series labeled as International Research Conference (IRC). The 6th International Undergraduate Research Symposium (IURS) was hosted by TSU in 2013 with delegates from Belgrade (Serbia); Chicago, Illinois, Wilmington (USA), Bangkok (Thailand), Philippines and Monsanto, International. TSU became a prominent venue for professional lectures and scientific discussion with world renown scientists and researchers. In December of the same year, TSU would be the host of the prestigious International Folklore Festival in cognizance of the exemplary and world-applauded performances of the TSU Performing Arts.

On infrastructure development, the University took aggressive and expeditious stance as the College of Science/Registrar, Multi-Purpose Business Center, Supply Office and Procurement, and Gender and Development buildings were created in the main campus, with the TSU Main Gymnasium, the Smith Hall and Canteen undergoing massive renovations. Major improvements in the main campus also include the pavement of the front ground and the construction of pedestrian and car gates. Construction of the P14-M Business Center Building is on its initial stage. At the Lucinda Campus, a 5-storey Academic Building-Phase 1, now on its completion stage, has ten classrooms and open but fully-equipped ground floor for laboratory use. Phase 2 houses seven classrooms in a 3-storey building augmenting the fast growth in enrolment. New establishments include the TSU Hostel, ROTC, Pangrehiyong Sentro ng Wikang Filipino Region 3, Main Library, Interfaith Chapel, Food Center, Clinic, and the Research, Extension, and Development buildings. There was also major improvement at the Student Center. In the San Isidro Campus, the new establishments include the Food Technology Building, Canteen and the Student Affairs Center. A P7-M CHED-DAP Fund was programmed for the C.A.T. (Computer Science-Architecture-Technology) Building (Phase 1), and P21-M for Phase 2 making San Isidro Campus the Techno Hub of the province. TSU now boasts of an enrolment reaching the 17,000 mark, making it among the biggest in the region.

VISION

The Tarlac State University shall be a comprehensive institution of excellence in higher education for total human development.

MISSION

The Tarlac State University is committed to develop, promote, and sustain quality relevant programs in higher education for people empowerment, professional development and global competitiveness.

TARLAC STATE UNIVERSITY

Founded 1906

Tarlac State University

TSU

Introduction

2012

Despite the growing societal awareness of the need for changes, both in pedagogical approaches and leadership landscape in this academic institution, Tarlac State University has not overlooked the strategies needed to vault- over in its quadruple functions.

In 2012, TSU has focused its attention on how best the University could meet the varied and challenging needs of improving academic performance, research outputs, linkages and global competitiveness of its graduates. The concerted effort of all delivery units was strongly manifested by its speedy compliance to the Performance-Based Bonus memorandum and held to the same accountability standards set by accrediting agencies.

To bring the issues and challenges confronting the University into clearer focus, the Administrative Council, Academic Council, Supreme Student Council and the Board of Regents joined hands, doubling the work in finding solutions, that which was most crucial for the success of the University.

Message from the President

The Tarlac State University ushered at the onset till the end of the year with renewed vigor , enthusiastic optimism and unrelenting will, pursuant to its noble goal to be the finest academic center of excellence on all fronts, in the region.

Possitive change has been happening.

For academic affairs, the University has initialized its faculty development efforts for the year 2012 by affording a good number of faculty personnel to seminars, trainings and conferences to various venues in the country and educational, technological and scientific conferences in Asian destinations.

The University consistently sends its educational experts to institutions and organizations that require their specific specialization as resource persons, trainers and program accreditors- a testament to the University's reputation as a powerhouse of learning in its class.

The studentry it serves and molds to become future community leaders is keeping up with the heap by rising up to the challenges of competitions outside of the university campus. They score proudly in national competitions and quiz bees to become winners in contests and write impeccably well in national and regional research colloquia to deserve honor and citation from argus-eyed panelists around. Several professors have been into the limelight in Asian conferences to present their individual researches that provided wider perspectives on disciplines they share with Asian counterparts. A few others similarly presented their researches in regional and national audiences in fields that are of common interest to them, as well.

The Academic and Extension Units have been likewise agog over their industry partnership programs, academic-based extension support service programs, community development modeling, the institution- public private sector partnerships and as host. These keep the linkages and extension providers always on their toes for meaningful services to the students and the community.

The Office of Scholarship and Endowment Unit of the University made impressive headway in extending scholarships to 946 deserving student beneficiaries with appurtenant entitlements and privileges.

Prominent among these accomplishments for the year, is an Academic Building that will soon rise at the Lucinda Campus, narrowing the problem on the need for school facilities and infrastructures in the three campuses.

More has been done beyond expectation, more will be relentlessly pursued as the days come. More will be done persistently beyond the limits for a better and a brighter University that we truly love and care for.

PRISCILLA C. VIUYA, Ph.D.
President

Message from the University Secretary

Jointly, the Administrative and Academic Councils have been working diligently in assessing Tarlac State University's performance in the recent fiscal year end. As we reviewed 2012, it became clear that while uncertainty remains, the University is meeting current challenges but its strengths continue to improve. Highlights include: increased enrolment to the 16,000 mark, provided superior customer service in all frontline service units, stronger academic linkages, regional and national research recognition, prudent financial management and maintaining a highly professional and credible working relationship among members of the different delivery units, and with clientele.

The Board of Regents and the entire executive team of the University are focused on instituting strategies to raise the bar, even to the point of making some movements in the organizational structure.

The discussions on structural changes have been insightful and productive with one clear expectation - that our core quadruple operations be as efficient as possible. Toeing to this mandate requires a continual focus towards excellence in all functions.

Changes, among others, include the renaming of the Office of Administration to include Finance, and the Office of RED into Research, Extension, Production and Development (REPD); and replacing the Office of the Vice President for Production with Office of the Vice President for Student Affairs, a newly created unit.

As a consequence of the restructuring is the movement of dedicated, effective and output-oriented people who vowed to commit in the spirit of service.

The former University Secretary is now serving as the new Vice President for REPD, while the former Director of Planning is the newly appointed to take the task of the University Secretary.

We intend to be going forward. . . up to the CHALLENGE!

PROF. EVELYN M. LABASTILLA
Newly appointed University Secretary

DR. LOUELLA F. ONA
Outgoing University Secretary

2012
Quadruple Functions

Message from the Vice President for Academic Affairs

It brings me great pleasure to present the 2012 accomplishments of the colleges and the academic offices. They did well in contributing to the University's pledge to academic excellence, community engagement, research, student achievement and production. It is so motivating to look back and see a big difference in what they have become due to their strong leadership. Painstakingly, they soared high in imprinting a mark in the academic field. It was not an easy task; it entailed a lot of hard work, boundless sacrifices and relationship struggles. They exhausted all possibilities only to upsurge their rating in national examination, the quality of their researches and extension activities to the community. Thus, all of them must be commended for the job well done.

I am confident that with the full support of our administration, Tarlac State University will maintain the esteem and status it occupies as a premier higher education institution in the Region.

God bless us all!

DR. LOLITA V. SICAT
Vice President for Academic Affairs

Message from the Vice President for Administration & Finance

Tarlac State University continuously endeavors to attain its vision of producing highly competitive graduates in their chosen careers. It continuously produces top performing students in their respective board examinations. In the attainment of the University vision, the Office of the Vice-President for Administration and Finance ensures that quality support services are extended to the all stakeholders, the students, the University personnel, the parents and the general public. The offices of janitorial, security, human resource management and development, administrative services, budget, accounting, cashier, supply and property management, procurement, records and gender and development are manned by efficient and competent personnel committed to making Tarlac State University a premier University in the Region. An institution, that empowers students to be better citizens of our nation.

Each of the delivery units of the Office of the Administration and Finance is guided by their mission statement of providing excellent support services to the academic affairs, student and development services and professional development, research and extension services. The Office leads and inspires the support services units in fulfilling the mandate of the University while at the same time developing their respective capabilities.

The Office of the Vice-President for Administration and Finance is confident that its human resources are capable of dedicating their efforts in promoting quality relations among the stakeholders and thus, upholding the long time tradition of bringing continued success and recognition to the Tarlac State University in particular and to our country in general.

DR. MYRNA Q. MALLARI
Vice President for Academic Affairs

Message from the Vice President for Research, Extention & Development

The Annual University Planning Conference conducted by the University Planning Office on April 3-5, 2012 in Puerto de San Juan, La Union led to the adoption of the new organizational structure and its subsequent approval by the Board of Regents. Significant changes included the fusion of delivery units under the Office of the Vice President for Research, Extension, and Development under former Vice President Glenard T. Madriaga and the Office of the Vice President for Production under former Vice President Brigido B. Corpuz. Today, the Directors of the University Research Office (URO), University Extension Office (UEO), University Production Office (UPO), Professional Development and Consultancy Services (PDCS) Office, University Planning Office, Alumni Affairs Office, Center for Tarlaqueno Studies (CTS), and the Pamantasang Sentro ng Wikang Filipino (PSWF) report to the VP REPD A number of completed researches were presented in local (34 researches) and international (18 researches) fora while 5 of these researches saw publication in refereed international journals. To further boost the research enterprise in the University, the Board of Regents affirmed the establishment of the Alexander D. Pascual Professorial Chair in Business and Financial Management, the Josefina D. Chua Professorial Chair in Accountancy, the Hytec Power Research Grant, the Dr. Albert Ma Professorial Chair in Engineering and Technology, and the Dr. Lee Ye Lick Alex Professorial Chair in Social Science. This is in addition to the two existing Professorial Chair Awards: the Dr. Benjamin S. Paz Professorial Chair in Science and the Dr. Benjamin S. Paz Professorial Chair in Education.

Extension work in the UEO continued year round to assist communities and individuals mitigate the impacts of a changing world while maintaining its ISO 9001:2008 Certification. Collaboration with DOST III was sustained with the implementation of the Community Enhancement through Science and Technology (CEST) Program piloted in Anao, Tarlac. And finally, resolute in its mission to safeguard the health of the environment and reach out to devastated communities, the UEO designed two programs for implementation under Special Projects : the Climate Change Mitigation and Adaptation Program (CC-MAP) and the Social Action on Relief and Rehabilitation Assistance Program to Victims of Calamities (SARAP Tumulong). A regional conference on Local History Writing Seminar-Workshop was co-sponsored by the National Commission for Culture and the Arts through the Center for Tarlaqueno Studies. A major accomplishment of the CTS under its research program called Historical Enrichment through Local History Program (HELP) was the publication of the work Pedro Pedroche, Partido de Agraviados and a Counter –Revolution in Tarlac Province, 1898-1899 in coordination with the Eduardo Cojuangco Foundation (ECF), the Municipality of Santa Ignacia, Tarlac, and SILAG or the Sta Ignacia Cultural Society. The Komisyon ng Wikang Filipino has once again designated the TSU PSWF Director as concurrent Director of the Panrehiyong Sentro ng Wikang Filipino, a distinction that was coupled with the conferment on retired former PSWF Director Dr. Consuelo F. Valerio of the Parangal sa Natatanging Kababaihan Gawad Sagisag Quezon on August 24, 2012 at the Bayleaf Hotel, Intramuros, Manila. In cooperation with the DepEd, the PDCS trained 982 Grade 7 teachers for the K-12 Basic Education Curriculum and 100 newly-hired teachers of Tarlac Province through its Teacher Induction Program while continuing with its programs on Basic Customer Service for Healthcare Providers in coordination with the Tarlac Provincial Hospital and In-House Seminars for University personnel in coordination with the TSU Human Resource Management Office. The 4th International Education Conference held on May 16-18, 2012 brought together 226 academicians from USA, Korea, Hongkong, and the Philippines. Revenue generation by the University Production Office regained dynamism during the year in review as evidenced by the 20% increase in recorded sales at the Business Center over the previous year. The Office of the Vice President for Research, Extension, Production and Development intends to venture into the year ahead with renewed commitment. May the Lord be with us always in this endeavor.

Louella F. Ona
DR. LOUELLA F. ONA
Vice President for Research, Extension,Production & Development

Message from the Vice President for Student Affairs

2012 had been a year of achievements and sudden swerves for the Office of the Student Affairs.

On July 16, 2012, the OSA Dean, Dr. Rex I. Igoy, embarked on a new challenge as the first Vice President for Student Affairs, a newly created office under the new TSU organizational structure. This creation led to some changes in the workforce system such as the convergence among those under OSA and other units coming from the university – a mean feat trounced by the experience and wisdom the VPSA has accumulated over the years.

Without doubt, the VPSA is now Father to the adept and dynamic forerunners of student service. Albeit divergence and differences, the new Directors under the VPSA collaborated to make the Office primed as it takes on the challenges and responsibilities brought about by the academic year. Never resting on their laurels, the different units under OSA each raked in a great deal of accomplishments during the last half of the year.

The changes in the system were unexpected and it brought about adjustments to the new organizational structure. But it paved the way for the emergence of something unspeakably better: the coming together of a rich tapestry of individuals in the blessing that we call FAMILY and this is this support system that we most hope for as we cater to our students with higher levels of commitment, quality and service.

CASS Arts & Social Sciences

The College of Arts and Social Sciences continuously renders service to 10 other Colleges in the University by taking care of the provision of the General Education (GE) courses, the basic social sciences and languages as foundation courses for professional training. Likewise, we continually offer four curricular programs: AB Communication, AB English, AB Psychology and BS Criminology. Its students are preferred applicants for employment and have emerged competitive in terms of work performance.

The year 2012 has marked notable accomplishments in line with Instruction that include the continuous enrichment of the curriculum, increasing number of enrollees and strong faculty development. In like manner the College was able to produce scholarly researches presented locally and internationally, both from the Faculty and student sectors. Aside from the award winning International Paper presentations, the College researchers were also known for winning the Annual In- House Review for Completed Researches. to name some, Dr. Cecilia L. Calub, Prof. Apolinario Saymo, Prof. Remedios Esperon and Ms. Francelle Calub won 3rd place in the said activity.

As to our extension function, the College continuously renders its labor of love at the Seminary, likewise the College is known in providing services in terms of leadership trainings, Campus Journalism workshop, English Communication skills training, feeding program and consultation assistance in terms of development planning. The College is also known in helping the University in its production thrust, because of its notable book writers where they produces books in the field of languages and social sciences being sold at the Business Center for the students used and this lead towards the effective teaching and learning process.

In addition to our instruction, research, extension, and production undertakings, the College conducted an In House Seminar Workshop to strengthened our services that is geared towards academic excellence and renew our commitment to serve the studentry and lay down our battlefield in the classroom with the end view of satisfying the philosophical and intellectual needs of the students. Thus, our students in like manner are also doing their job in helping the College and the University as whole.

CAFA Architecture & Fine Arts

The College of Architecture and Fine Arts has achieved almost twenty six years in educating and producing some of the finest architects and artists in the country in addition to contributing to the development and construction industry, not only in the Philippines but to highly urbanized countries.

To expand its contribution to society, one of the thrusts of the college now is to revisit the course offerings and find ways to fit all graduates in the industry. The committee on curriculum was tasked to study for possibilities to open alternative courses requiring no board exams like B.S. in Architectural Engineering, B.S. Architecture Major in Construction Management and B.S. Architecture Major in Drafting Technology and considering the possibility to open a Diploma in Building & Utilities Draftsperson & Construction Technician. This direction provides a safety net to students who may not be ready for Architectural Board Examinations.

To emphasize hands-on and project – based learning, aside from lectures and laboratory exercises, the college also administers actual site visits on building construction and utilities, organize monthly product presentations, facilitates on-the-job trainings to local architects & artists and to accredited organizations such as The United Architects of the Philippines (UAP) and the Arts Association of the Philippines (AAP). Likewise, a stricter retention policy is being developed to ensure its graduates to be the best in the field and become globally competitive.

Supporting this capability is the continuing professional development of its faculty members having five of them now on their master degree program particularly on Construction Management. Likewise, its faculty's active participation in the university's infrastructure and maintenance programs has made them experts in their fields --- Arch. Mateo C. Bondoc and Eng'r. Jumar Valdez as active members of the University's Bid and Awards Committee and in the Infrastructure Technical Committee; Arch. Arlen M. Guieb as attached CAFA Faculty and under the Physical Plant Office of the University; Mr. Wilfredo Dungca as a national accreditor of AACCUP in the field of Fine Arts, Dr. Oscar Pecson was appointed the fine Arts chairman last Nov. 2012 and Dean Marco F. Bildan as the Design Head of the proposed infrastructure projects of the university.

True to its mission to be one of the premier colleges in the region in terms of arts and architecture, TSU CAFA, having achieved Level 2-AACCUP accreditation, continues to strive and prepare for the next accreditation level for preliminary survey. Proudly, CAFA is supporting the university's direction to become the center for development and excellence, and the TSU San Isidro Campus where CAFA is located is now being proposed to be the Technological Hub of the Tarlac State University.

ARCH. MARCO F. BILDAN
Dean, TSU College of Architecture and Fine Arts

Linkages

The College is dedicated to maintain strong links with the creative sectors as well as with the government, NGO's and the construction industry sectors in the region. This is not only to generate opportunities for our students and graduates, but to maintain currency and relevance of our curriculum with the needs and trends in the community.

During the year, the Municipality of Anao, Tarlac was assisted by the College of Public Administration and the College of Architecture and Fine Arts to come up with the Comprehensive Land Use Plan (CLUP) through the close supervision of Dr. Khrishna V. Buenaventura and Arch. Eduardo Quintero. Supporting this project plan was the thesis proposal of five graduating architecture students – LUNTIANG BAYAN: "A proposed Town Development Planning of Anao" headed by Mr. Roddy Pete Mercado, Orlando Sangalang Jr, Amacelino Layug, Jinno Sumaoang & Jaime Mamawal which was successfully completed and submitted to the Mayor of Anao last Nov. 2012.

Research and Extension Services

Dean Bildan was chosen by the Water Tech Philippines Global Link under the Philippine Society of Plumbing Engineers to talk on the topic: Rainwater Harvesting: An alternative water source for non- potable water use" as one of the technical Lecturers on the occasion of Water Technology Philippines Exhibit coinciding with PhilConstruct and PSVARE last August 17, 2012 at SMX, Pasay; Waterfront Hotel, Lahug, Cebu City last September 6, 7 and 8, 2012 and in SMX Convention Center, Bajada Lanang Davao City last November 29 – December 02, 2012.

Community Involvement

In February 2012, TSU CAFA celebrated the National Arts Month with the theme "Basta Art Siya" held at SM City Tarlac. Art exhibits, workshops and contests such as on-the-spot painting, caricature drawing, mixed media and color rendering were the major activities in said event. This became a tool for dissemination campaign for incoming first year students, for budding artist and enthusiasts and the end product was to familiarize local small medium scale industries for further advertising campaign.

The United Architects of the Philippines Tarlac Chapter with its student arm – UAP Student Auxiliary (UAPSA) of TSU CAFA sponsored a medical and dental mission, and tree planting activities.
Annual participation in the Belenismo Fair in the province of Tarlac is counted on where UAPSA and CAFA alumni are the backbone in preparing such fabulous entries. Some of the entries of government agencies and institutions in the Belenismo are creations of students and graduates of TSU CAFA.

The College also caters free services in the field of Advertising & Architecture consultation for NGO's, government agencies, religious organizations as its service to the community.

Highlights

"Rainwater Harvesting: An alternative water source for non potable water use"
- Ar. Marco F. Bildan, one of the technical lecturers Water Technology Philippines Exhibit at SMX, Pasay August 17, 2012; Waterfront Hotel, Lahug, Cebu City, September 6, 7 and 8, 2012; SMX Convention Center, Bajada Lanang Davao City, November 29 – December 02, 2012.

"Master Plumbers 2012 Oath Taking Ceremony" October 6, 2012, Manila
- Guest of Honor and Speaker, Ar. Marco F. Bildan, fnampap, former member Board of Master Plumbers

CAFA & CPA Collaboration

With the Assistance of TSU to the Municipality of Anao, Dr. Krishna Buenaventura & Arch. Eduardo Quintero lead their students to come up with a Research & Extension Project: for Comprehensive Land Use Plan (CLUP) - LUNTIANG BAYAN: "A proposed Town Development Planning of Anao" which was successfully completed and submitted to the Mayor & Municipal Counselors of Anao last Nov. 2012.

Outstanding Students

Architecture Department:

Best in Thesis (Architecture)	Ryan A. Gidor
Best in Visual Technology	Fatima Reyes
Best in Building Technology	Rico V. Pascua

Fine Arts Department:

Best in Thesis (Advertising)	Mhalvin M. Mejia
Best in Painting	Alfredo G. Baluyot
Best in Illustration	Alfredo G. Baluyot
Best in Drawing Fundamentals	Wiljoseph Magsino
Best in Graphics Design	Clarodille A. Tangonan
Artist Discovery of the Year	Chrisanto N. Aquino
Best in Photography	David Samuel Nunga

2. Espejo, Mark Ryan Y.	2. Magsino, Wiljoseph M.
3. Sangalang, Orlando P.	3. Tangonan, Clarodille A.
4. De Vera, Myla Andrea A.	
5. Calixtro, Jeffrey A.	
7. Vergara, Princess Kathrine S.	
8. Dancel, Billy Joe P.	

CCS Computer Studies

For years, the College prides itself to pass muster in its strategies for well-rounded development of the students. With this in mind, the College has undertaken measures for the development of professors and instructors through seminars and further studies in various fields.

As a college, the faculty and staff are working together to help implement industry standards, thus renovated a number of classrooms for the comfort and better learning atmosphere of students.

Throughout the years, the continued support of our Parents and Teacher's Council had been instrumental in the progress of the College, both in academics and extra-curricular activities.

My deepest gratitude to all your support.

PROF. JEROME C. LEGASPI
Dean

The 2nd Regional ICT Research Colloquium was held at Systems Plus College Foundation, Balibago, Angeles City last March 9-10, 2012. The said event was attended by CCS Faculty members namely, Mr. Al Vincent Danganan, Ms. Heidilyn V. Gamido, and Mr. Mervin Mohammed. Selected researches from the graduating students of the different departments, (Computer Science, Information Technology and Information Systems) were also presented.

Jo Anne G. Cura, 2nd Place Winner for Technology Generated Category- Computer-Managed Exam Assistant and Grade Recorder with Item Analysis

The 13th Annual In-House Review of Completed Researches was held last December 17, 2012. Ms. April Jane Figueroa, Dr. Murphy Mohammed presented their research on "Development and Evaluation of Northern Luzon Command Web Portal" and Ms. Jo Anne Cura with her study entitled "Computer-Managed Exam Assistant and Grade Recorder with Item Analysis". The latter won 3rd Place in the Science and Technology Category.

CON Nursing

The College of Nursing continues to uphold its commitment to a culture of caring that enhances student learning and professional development. It creates a learning environment that meets changing and challenging healthcare circumstances, through provision of innovative learning situations and technology, as means to make a difference on the lives of many people in the community. It has embarked upon a strategic plan that provides direction, priorities and initiatives while it continues to focus on its vision.

The year 2012 has been an exciting year for the College. Despite of the down trending of enrollment in the nursing program, the College still maintains and proves its quality performance through the July 2012 NLE results of 75.89% , far above the national average rating. Furthermore, recognition was obtained by the college in winning as the champion at the regional quizbee competition "Cabiaza" hosted by Holy Angel University last Feb. 2012. Our graduates are also leading by example, positioning themselves as staff nurses, chief nurses, supervisors in various clinical / healthcare settings from both local and international settings.

CON provides a student-centered education and serves students through its commitment to excellence. The faculty facilitates the education of students in the art of science of nursing to provide ethical, holistic, and culturally competent and population-based care. It builds on a tradition of serving our local community through extension programs and research.

Thank You.

PROF. LUCILA O. SUNGA, RN, MPA, MAN
Dean

IVT Training JULY 2012

Oath-taking Ceremony and Thanksgiving Mass for Board Passersof the July 2012 Nurse Licensure Examination, September 7, 2012.

COED Education

As the Center of Training in the Province, the College of Education was able to conduct four Teacher Induction Programs with DepEd Tarlac City, Tarlac Province and Zambales. These were made possible in partnership with the University Training Office and the Teacher Education Council in Region III.

Two Graduate Programs of the College were awarded Re-Accredited Status - Level III, these were the Doctor of Education and Master of Arts in Education. A Revised Admission and Retention Policies were implemented, LET performances and research outputs, presentations and publication were heightened this year. Moreover, to further improve the College's services, necessary physical and technical improvements were installed. Benchmarking on good teaching practices as well as becoming a Center of Excellence was conducted at Mariano Marcos State University.

One of our trademarks of CoEd is our strong Extension Program held in Barangay Batang Batang and Batang Batang Elementary School. This year, various projects on Literacy, Numeracy, Livelihood training and "Gulayan" were held all year round. Feeding, dental and medical missions were also held through linkages with Rotary Club of Central Tarlac, OIKOS, NSTP with the support of the University Extension Office.

Finally, the College is also proud to be opening two sections at the newly established La Paz and Victoria Campuses in partnership with the Local Government Units. The College is truly making waves in giving quality education true to its mission in changing lives and making a difference in our young educators.

DR. MA. AGNES LADIA
Dean

Pictures Galore

"Borderless"
The College of Education led by Dean Agnes Ladia together with Mr. Nelvin Nool, College Research Chair, Dr. Alma Corpuz, Dr. Remedios Facun and Dr. Rosalina Garcia posed with a Taiwanese presenter in Singapore.

"Hi-Tech"
The photo shows a student doing his report using LCD television for his multi-media presentation, making the college more "techie".

"Molding Minds"
The picture shows pupils taking remedial math or numeracy initiated by the Math-Soc, a college-based organization, along with their math teacher.

"Green Warriors"
Dean Ladia and RCCT Pres. Rex Igoy handed over the vegetable seeds from the Department of Agriculture to Barangay Captain Rigor and the Batang-Batang Principal

"Working Together"
Posing with our partners from the Teacher Education Council, Dr. Beatriz Torno and the Regional Superintendent along with Dr. Al Biag of HAU and Dr. Norbina Castro, LS Director during the Administrative Meeting for Centers of Training.

"Enabling Hands"
Prof. Briones is seen here teaching some crafts to the women sector of Barangay Batang-Batang that hopefully would give them additional income.

"Learning from the Best"
COED and LS faculty delegates on Benchmarking visit at MMSU College of Education, a Center of Excellence in Region 1.

"The Work of our Hands"
This project made by the BSIE classes is a mixture of instructional and decorative material.

CT Technology

The quest for quality technological education leads the College of Technology to reinforce its mission, goals, and objectives in order to primarily contribute to the VMGO of the TSU in line with its four mandates: Instruction, Research, Extension and Production. In 201, through the collaborative and concerted efforts of the faculty members, staff and students, the College of Technology has improved the quality of instruction through the use of modern Educational Training Equipment fabricated by the College. Since CT provides quality technological education as manifested in the employment status of its graduates, it is not surprising that the number of its enrollees steadily increases every year.

Further, the College has generated quality researches including the development of different instructional equipment like Technological Trainers and Metal Detector, a food safety equipment which are patterned from the actual equipment used by industries, and other physical facilities. Most of the researches generated this year have emphasis on Energy Conservation maximizing the use of alternative energy including solar power. Further, the College continuously provides extension services on Technical Skills and Livelihood Programs in different communities. This year, the College collaborated with the University Extension and Research Offices sponsored by DOST-III to develop the Kabyawan industry in Lalapac, Victoria Tarlac. Likewise, the Nutrition and Food Society participated in the Student Extension Experience Program focusing on ecological waste management.

Truly, our college's exuberance for progress opens ample opportunities to provide quality technological education in and out of the institution.

College Planning and Team Building at Isla Vista Resort

CBA Business & Accountancy

2012 was another fruitful year for the College.

Numbers don't lie. This year, CBA has 580 graduates, and 7, 675 enrollees - the highest in the University. These facts indicate the high demand for the programs offered in the College . Our continuing challenge, as believers of kaizen, is to further improve the execution of our College plans and strategies to drive performance and thereby make our programs the first choice among incoming freshmen.

The triumphant hurdling of our 34 new CPAs in October, resulted to an overall 56.67 % passing percentage. Thirty among the first takers, accounting for a 68.18% passing rate, were from the first batch of the BSA 5-year curriculum. The other four out of 8 were repeaters. This record-breaking feat in terms of number of passers is an indication of the suitability and the successful implementation of our BSA Retention Policy.

On the student side, JPIA and JFINEX both earned 'Outstanding Student Organization' accolades given by their respective national confederations. The Economic Society hosted the Annual Conference of the Council of Economic Educators. The BS Entrepreneurship Program was a recipient of a DOLE assistance in the sphere of business education. Our HRM students had undergone on the job-training to bridge the gap between theory and practice. Our marketing students attended trainings and seminars so as to augment their skills and technical competence. Year round, our students, through their respective student organizations and the College Student Council, either initiated or assisted in executing our College extension activities.

Year-round, professionals and managers enrolled in our MBA Program so as to acquire the needed "gnosis" in the field of business management. The MBA Society also conducted various extra-curricular events and actively participated in the activities of the College.

On faculty development, the teaching force underwent constant retooling via seminars, trainings, conferences and continuing education. During the year, two earned master's degrees and one earned Ph.D. At present, 9 and 88 are enrolled in the DBA and MBA Programs, respectively. These professional development activities are the academic 'launch pads' of our College with the aim of capitalizing on our own strengths and building our existing abilities for the benefit of the University and our stakeholders.

In pursuit of our social responsibility, our faculty members served as trainers' in livelihood seminars, accounting and auditing standards, business management and academic related fields. Some of our faculty served as accreditors of AACCUP. The College maintained linkages with various entities such as the Philippine Institute of Certified Public Accountants, Financial Executives Institute of the Philippines, Bureau of Internal Revenue, Department of Trade and Industry, SMEDC, Tarlac Area Productive Center, Bangko Sentral ng Pilipinas, Council of Economic Educators and some local government units.

To assess the previous academic year's performance, we had our faculty team building and planning workshop in esprit de corps mode in Baguio City and San Fernando, La Union last March 1-3, 2013.

Finally in pursuit of total human development, our College regained supremacy by winning the overall championship in this year's Intramurals held last September 2012.

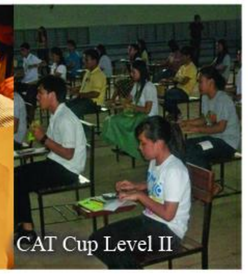
PICPA Accounting Quiz Bowl



CAT Cup Level II

TSU Laboratory School

Tarlac State University Laboratory High School had a total enrollment of 550 students during the school year 2010-2011. Students who enrolled at the Tarlac State University Laboratory High school every year are those who passed the entrance examination

Now that school year 2010-2011 has just ended our fourth year graduating students, at least, ended their vigorous school work with tedious varied activities. Their four years stay at the TSU Laboratory High School could not be forgotten by them because of their joyous times and tiresome studies and other activities. Parents can be given assurance that their children have been developed physically, mentally, socially and spiritually. Their stay at the school is considered one chapter of their lives. Their total personalities at their ages were developed in the school. So, what they are after their graduation are the products of the joint effort of their parents and teachers. It is not easy to be a teacher. Teachers are everyday confronted by problems of students. Teachers problem on how to make their students learn very well is daily. Problem on how to make students live with good manners and right conduct is the teacher's responsibility. Teachers would like their students to become courteous, religious, helpful, responsible, and good citizens. These are only some of the good things that a teacher would like to teach their students. This is how great the mission or job of a teacher. That is why the students' parents and the teacher should work harmoniously for the total development of students' personalities. This is the gigantic objective of the TSU Laboratory High School aside from academic development. The management of the school is focused on the multi objectives which are enumerated.

So far, teachers show their extra ordinary, patience, love, concern, and psychological strategies for the good of their students. These traits of teachers are developed during their long years of experience. Parents have shown their cooperation in developing their children through their good attendance everytime the teachers call for them for a conference. They have shown obviously their support and cooperation. The following are something new to develop. The faculty room is simply structured for comfortable stay of teachers during their vacant period or conference with parents. Classrooms are newly painted and simply structured but they look rested to eyes and conducive to learning.

This school year 2010-2011 the school organ was revived with only one issue. Our students participated in the local press conference and competition. Students participated also in the local literary contests, local and regional math and science contest, History and General Information, cheerleading, singing and dance competition and other extra-curricular activities.

During my first year of school management, it was my time for general assessment of the school climate that covers students development, teachers development, physical facilities development and school campus development. School year 2010-2012 is fast approaching and the school program deduced from the general assessment becomes this order of prioritism and targets.

Students development……80%
Faculty development……..10%
Physical facilities development…… 5%
School ground development…….. 5%

This program of priorities includes the support of our Dean, University President, PTA, Alumni and all officials of the university. The success of the program depends also greatly from our very supportive and dedicated teachers who will be in the front line of the difficult job.

Our attack to the job this coming school year is escorted by the power of our Almighty God with assurance.

May God bless all of us. Mabuhay po tayong lahat.

Norbina Genever M. Castro
NORBINA GENEVER M.CASTRO

COS Science

Last year, I compared the College of Science to an airplane which has taken off and aimed to soar high. For the year 2012, the COS continued to achieve excellence in academics, research, curricular and non-curricular activities. True to its commitment, it continued "to polish minds and develop critical thinking" to its students.

I always believed that the strength of the College of Science lies in its faculty members and students. The College was able to score achievements of remarkable significance worth mentioning.

The forging of five, new linkages for chemical training (OJT) of students was considered a significant accomplishment in 2012. These new linkages, in addition to the existing ones, have opened new experiences as well as provided horizons of employment opportunities to the graduates.

In the area of research, two juniors were awarded in the 6th Phil. National Health Research System (PNHRS), one was awarded 3rd prize and the other was adjudged finalist competing among 88 contenders. In the professional level, the research of Asst. Prof. Erwin C. Mina was adjudged as one of the top 13 researches out of 61 submitted research papers. In the 2012 University-In-House Review of Researches, the researches of Mr. Willie Alagano and Mr. Mina were awarded 1st and 3rd place, respectively, in the S&T Information Dissemination category . The research collaborations under the CLHRDC and CHED-ZRC are on-going, faculty members have continuous attendance to seminars and trainings in national and international levels. The College was able to organize two international symposia: "The Advancements of Natural Products Researches" with a multi-awarded Fulbright scholar, Dr. Alfred R. Conklin of Wilmington College as resource speaker; and "Recent Studies in Computational Chemistry, Nanotechnology and Materials Science" with Dr. Ante Bilic, a scientist from Australia,. In terms of equipment, computerized laboratory equipment in Chemistry and Physics and three computer units were obtained for research purposes of faculty and students.

Participation in competitions is a measurement of what the students have learned. This was manifested through the participation of B. S. Chemistry students in different national competitions. In the Philippine Science Consortium-Science and Mathematics Quiz, TSU team was awarded 6th place among 27 competing SUCs. In the CHED 32nd National Quiz Bee, was adjudged 4th place among ten competing institutions, and in the PASUC History Quiz, TSU was heralded the champion.

Furthermore, the year 2012 had provided balanced activities for the students. The college was champion in the Sabayang Bigkas during the Buwan ng Wika Celebration of the University, 3rd place in the swimming competition during the University Intramurals, champion in the street dance and 5th place in the float competition during the University Foundation celebration.

Very proud as it is, the College was able to produce two magna cum laudes and 5 cum laudes in 2012. This was the first in the history of the College to produce magna cum laudes and two in a row!

The College of Science has achieved a lot in 2012, this is because of the unity and commitment of the faculty members and the quality of students that we have. The College will keep on doing its best for its stakeholders. For the coming AY 2013-14, a bigger population is expected for it will re-offer two programs, the BS in Mathematics and the BS in Environmental Management. This is something to watch out, for the College may no longer be "small and mighty" but "strong and mighty."

INSTITUTE FOR LOCAL GOVERNMENT ADMINISTRATION

Quality Governance (Q-Gov)

TSU-ILGA's QGov is a kind of program where an LGU enables the barangays to improve their local government administration, professionalize barangay staff, overhaul the management of public enterprises, improve delivery of public services and ultimately, become more transparent and accountable. The LGU is expected to improve its good governance by having a sustainable and improved delivery of services.

The Municipality of Anao, Tarlac has adopted the TSU-ILGA's QGov since last January 2011. The municipality allotted twenty percent (20)%) from its Environmental Defense Fund (EDF), amounting to seventy-five thousand pesos (P 75,000) for the QGov Project. The ILGA Director has provided continuous assistance and worked with the QGov Anao Team counterparts, headed by Architect Perlyna A. Mannix (MPDO), Coun. Rafael Naral (Legislative), Dr. Amelia T. Bulseco (Health), Engr. Carlo Y. Silva (Engineering), Insp. Eduardo Torres (PNP), Ms. Teresita T. Quindara (Budget), Ms. Bernardita Santos (Agriculture), Ms. Maricar Butay (Social Welfare), Mr. Nick V. Salazar (Sanitary), Ms. Celia Ignacio (Treasury), and Ms. Tessie Quimado (Assessor).

Last February 27, 28, 29, 2012, the ILGA Director and the QGov Team Anao conducted the Final QGov evaluation. The following eighteen (18) barangays were evaluated: Bantog, Suaverdez, Casili, Baguindoc, Sinense, Rizal, San Juan, Poblacion, San Roque, Dona Carmen, Don Ramon, Sto. Domingo, Hernando, San Jose South, San Jose North, Campos, San Francisco East, and San Francisco South. The awarding of QGov winners was held last March 16, 2012, during their Town Fiesta. The QGov Grand Wiinner was barangay San Francisco West and Runner-ups were barangays Casili, Dona Carmen, San Juan, and Bantog.

Since the awarding of QGov winners last March 16, 2012 was a success, the QGov Team-Anao and ILGA have decided to continue the said project this 2012 to 2013.

The Institute for Local Government Administration (ILGA) is one of the offices under the Vice President for Research, Extension, and Development (VP-RED). ILGA seeks to promote responsive, morally accountable and competent public servants among Local Government Units (LGUs) through short courses to contribute to self-reliant and nationalistic regional and national development; pursue and conduct relevant, development-oriented research, that would promote community and national goals; and promote research and extension services among LGUs to help improve the quality of life of the residents of various communities.

PROF. MICHELLE E.SUBIATE
Director

NATIONAL SERVICE TRAINING PROGRAM

Greetings in the name of community service!

The TSU-NSTP Office is already in its tenth year of existence. As steward of nation building, the office has been one of the flagship academic offices of the university in the development of increased social awareness and social responsibility of students through community exposure. The positive response to the challenge of shaping and influencing students, the young and modern sector of this century, to become agents of development in various communities was one of the major highlights of the Office's achievements. Benevolent efforts of faculty, staff and students were extended to marginalized communities and other partner agencies. Active participation, as well as enhanced self-esteem of students in combating the challenges in community building were demonstrated through leadership and participation in basic trainings of NSTP.

Yet, even as we commit all our efforts, the Office still has a lot of plans which were not yet realized due to some constraints. These constraints are now considered by the Office as opportunities to improve the quality and delivery of its services. Along with this, the Office management is aiming to work with many of TSU's courageous leaders for social change, people who look for the benefit of all, never to waiver their commitment for the general welfare and betterment of lives of the different members of various communities. Through this, TSU-NSTP management believes to have participatory approach and achieve a win-win solution towards nation building.

ENGR. JESSIE H. DOMINGO
Director

INTERNATIONAL AFFAIRS AND STUDIES

International Affairs and Studies Unit:

- Facilitated the English Proficiency Program to Korean students of Hyupsung University, Yeungjin College, and Mission Camp.
- Facilitated the signing of MOA with Yeungnam University in Korea and renewed the MOA with Hannul Binna.
- Sent Ms. Oliveth O. Bruno to Sun Moon University Exchange Program in 2012 Fall.
- Welcomed foreign guests (University officials) and Vietnamese students to TSU.
- Facilitated the teaching of TSU professors in the EdD-EM special program to Korean students at TSU and Seoul, Korea and the Research lectures to Vietnamese students.
- Sent two TSU professors in Yeungjin College, Daegu, Korea to teach IT and English for the TSU- Yeungjin College BSIT Program from June to August 2012.
- Held and sponsored a lecture on Disaster Management and Structural Engineering and Architecture Design last April 10, 2012 with Mr. Seong Yong Kim and Engr. Arch. Guang Il Lee as speakers.
- Assisted in the 4th International Education Conference held at SM Tarlac and TSU from May 16 – 18, 2012.
- Held extension activities with Yeungjin students and Professors to an Aeta Village in Dapdap, Bamban, Tarlac.
- Purchased a Hyundai County Bus out of the OIAS revenues.

TSU Hostel:

- Relocated and constructed a new laundry room.
- Beautification and face lifting of the Hostel through indoor and outdoor landscaping, placing of curtains at the lobby, offices and classrooms, and upholstering of sala sets.
- Purchased seat and table covers and a copier for income generation.
- Co-sponsored with the College of Architecture and Fine Arts the holding of Painting Exhibit at the TSU Hostel during the University Foundation Week 2012.
- Venue rentals and room accommodations increased in 2012.

With the full support of the TSU Administration, the Office of International Affairs and Studies (OIAS) was able to have significant accomplishments for Year 2012. The new organizational structure of the University placed the OIAS under the Office of the Vice President for Academic Affairs. Also, to complement the work and activities of the International Affairs and Studies, the full operation of the TSU Hostel was placed under the OIAS. Thus, the OIAS now has two units under it – the International Affairs and Studies Unit and the TSU Hostel.

The OIAS was able to contribute to the coffers of the University out of the tuition derived from foreign students. From this income it was able to buy a 30 – sitter Hyundai County Bus. Through its linkages, it was able to send exchange students and faculty to South Korea. The transfer of the TSU Hostel's full operation to the OIAS brought about an improvement in its physical facilities and services. The Hostel is now making a name among the hotels here in Tarlac being the only one with the capacity to accommodate more than 300 guests. Thus, 2012 is a good year to the TSU Hostel which generated more revenues out of seminars, trainings, and conventions. In spite of the limited number of OIAS staff handling its operations, it was able to give noteworthy and efficient services to its clientele because of the dedication and passion of its faculty and staff.

PROF. MA. JUNE CARLOS
Director

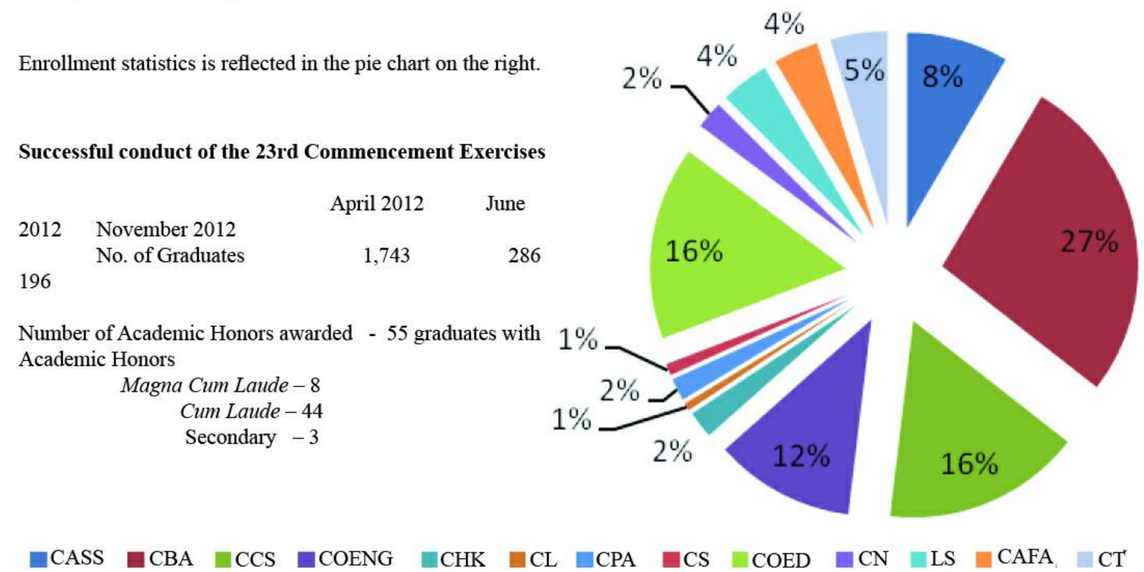
REGISTRATION AND ADMISSIONS

The Office of Registration and Admissions (ORA) is the source of academic and student records information. With the complete automation of the University in enrollment and records management, it was able to give a better, fast, and efficient service to the clientele. The end result is that for 2012, more students were admitted and enrolled and more academic documents were generated and released. The expertise of the ORA personnel along their assigned areas coupled with their long experience in their line of work brought about a mark and brand in admission and registration practices in the region.

PROF. MA. JUNE CARLOS
Director

To give support to academic services and instruction, the Office of Registration and Admissions was able to successfully accomplish the following:

Enrollment statistics is reflected in the pie chart on the right.



Successful conduct of the 23rd Commencement Exercises

	April 2012	June 2012	November 2012	196
No. of Graduates	1,743	286		

Number of Academic Honors awarded - 55 graduates with Academic Honors

Magna Cum Laude – 8
Cum Laude – 44
Secondary – 3

Efficient evaluation of academic records of students for purposes of scholastic standing, enrollment, and graduation.

Number of Student Records Evaluated - 6,771 records

Applied best practices in records management resulting to fast and efficient retrieval, generation, release, and safekeeping of records, as well as increase in revenues derived from the request of academic records.

- Number of OTR Generated and Released - 4,584 transcript of records
- Number of Certifications Generated and Released - 2,410 certifications

Early processing of validation and accreditation of subjects of transfer students.

ORA staff attended trainings and seminars for self-development and improvement.

Posted memoranda on Academic Calendar, First Semester Enrollment, and Second Semester Enrollment for AY 2013-2014 at the Official TSU website and Transparency Seal.

MANAGEMENT INFORMATION SERVICE OFFICE

The Management Information System Office of Tarlac State University has took-off from the computer repair unit to information Technology Management Unit. In 2006, it installed the fiber-optic backbone network which pved the way to the establishment to the Local Area Network and provided data services to the different units/ofices in the University. In 2012, the MISO has strengthened its organiztionby by assigning technical personnel in charge of the different aspects of the office's function (facilities, deployment, laboratory, network, internet, monitoring, cabling, software installation, website, and prisms). The MISO has also employed student Ojt From the College of Technology and College of Computer Studies who served as assistants to our technical staff. For this year, a total of 705 service requests from the different units had been attended, accomplished and recorded in the office.

In 2012, aside from attending service requests, the bulk of duties being done by the office is the maintenance of connectivity. With this function comes of the monitoring of the different servers being housed in the data center. The MISO sees to it that the offices are provided with reliable connection when they need it. Security of data and physical asssets do not take a back seat at the MISO. Increasing security levels of the different systems were implemented and available anti-virus software were installed. The University is yet to produce a firewall and corporate anti-virus software to strengthen the network against vulnerable attacks. Physical security was also reinforced by installing the RFID security access to the data center where only MISO personnel can enter the center using their assigned RFIDs and the installation on the CCTV to monitor physical access to the facility.

ENGR. MARLON V. GAMIDO
Director, MISO

INTERNAL AUDIT SERVICES

True to its desire to assist the administration in promoting effective, efficient, ethical and economical operations by appraising the adequacy of internal controls as prescribed by the National Guidelines on Internal Controls, the Internal Audit Service (IAS) office was able to accomplish five (5) audit projects other than its usual routine activities for the calendar year 2012.

The IAS completed the appraisal of the systems and procedures of the Office of the International Affairs and Studies and the University Hostel, operations audit of the TSU – ISSF for the year ended December 31, 2011, audit of the cash advances granted to officials and employees for the year ended December 31, 2011, and extended assistance to the TSU Foundation by conducting financial audit of its financial statements ending June 30, 2011.

Aside from the special audit assignments accomplished during the year 2012, this office was able to complete supervision of the Cash management and control of university student councils and publications, and audit of the cash advances granted to them, attended as observer to pre-bids, biddings, and canvass-purchase, and witness to inspection of deliveries of approved purchases and physical inventory taking of university properties.

PROF. JONATHAN GABRIEL
Director, IAS

UNIVERSITY EXTENSION OFFICE

The UEO was able to meet its target in CY 2012 under all extension programs. This includes the completion of the muscovado kiln, upgrading of the small sugarcane mill and the modification of the muscovado molder in Brgy. Lalapac, Victoria Tarlac and the conduct of various trainings in Brgy. Batangbatang, Tarlac City under its Community Development Modeling (ComDev) Program. Ten (10) services were rendered in the development of logo, promotional materials and label designs and three (3) consultancy services to SME were extended under the Industry Development Extension (InDex) Program. A total of 34 skills training and 23 continuing educations under the Extension Support Services Program (ESSP) were conducted graduating 803 and 1,331 trainees, respectively. Moreover, four (4) Completion Reports on specific extension interventions were awarded Terminal Extension Cash Incentives (TECI). It was also this year that the office was able to design new programs approved by the institution namely the Climate Change Mitigation and Adaption Program (CC-MAP) in Lucinda Campus and the Social Action on Relief and Rehabilitation Assistance Program to Victims of Calamities (SARAP Tumulong) and also the implementation of a joint project of DOST-3, the Community Enhancement through Science and Technology (CEST) Program. The office has also maintained its ISO 9001:2008 Certification.

PROF. REDEMPTOR G. TOLEDANO
Director

UNIVERSITY PLANNING OFFICE

The Tarlac State University conducted the 2012 Annual University Planning Conference on April 3-5, 2012 in Puerto de San Juan, San Juan La Union. The output of the planning conference is the six-year TSU Development Plan, 2009-2015.The Planning Conference were attended by members of the Administrative Council including the Presidents of the Supreme Student Council, TSU Faculty and Personnel Union, and TSU Staff Non-Academic Association. The inaugural implementation of the performance-based bonus in 2012 required the submission of the certain performance indicators for the university which our institution had very satisfactorily accomplished. The new Organizational Structure of the University was adopted with the creation of the Office of the Vice President for Student Affairs and the merged Office of the Vice President for Research, Extension, Production and Development for more responsive and efficient operation and services.

DR. BRIGIDO B. CORPUZ
Director

UNIVERSITY RESEARCH OFFICE

Research has been emphasized as a tool to achieve the goals for national development and global competitiveness. Hence, the Tarlac State University, strategically located in Region 3, is at the vantage point of research development work in response to the KRAs of the national government. The strategic initiatives that the University Research Office has been pursuing for the past several years continued to produce dramatic results in 2012 in terms of faculty participation, success of research results, and linkages.

Consequently, the institutionalization of research incentive packages, aimed to meet higher grounds in the SUC Leveling, has encouraged a new crop of faculty members to engage in the area of research. The support of the college deans in the development of research culture through the conduct of research capacity building seminars made positive results. Increased number in paper presentations and publications paved the way for the University to meet its Performance-Based Bonus targets.

Henceforth, the University Research Office will be soaring to greater heights in terms of developing a research culture in the university.

DR. MARIA ELENA D. DAVID
Director

Basic Training on Research Ethics was held on February 24, 2012, attended by research chairpersons and researchers from the different colleges of the University. Dr. Roberto Pagulayan of the CHED Zonal Research Center 3 was the resource Speaker.

Dr. Erwin Lacanlale, Dr. Susan Ramirez, Dr. Maria Elena David and Ms. Julie Ferrer presented their papers during the 7th Annual Education and Development Conference held on 5th-7th March 2012 in Bangkok, Thailand.

Training on Metals Research and Industrial technology conducted on July 23, 2012 with speakers coming from the Metals Industry Development and Research Center (MIRDC) of the Department of Science and Technology (DOST) Central Office to encourage researchers from the College of Engineering and College of Technology to conduct new researchers along this line.

College of Education participated in the ICFTE 2012, CEBMM 2012, ICEMI 2012 February 26-28, 2012 in Singapore.

Dr. Paz Angeles and Dr. Editha Villavicencio at the Asian Conference in Education , May 28-30, 2012 at Renaissance Kuala Lumpur Hotel, Malaysia.

Seminar on Technology Researches, conducted on August 13, 2012 at the San Isidro Campus, was attended by 29 participants. Resource speakers came from the Industrial Technology Development Institute (ITDI) of the Department of Science and Technology (DOST) Central Office. Picture above shows the resource speaker giving suggestions to the E-trike Project of Dean Punla.

The University Research Office successfully conducted the 13th Annual In-House Review of Completed Researches on December 17, 2012. There were 34 entries presented by faculty researchers from the different colleges and units of the University: Science and Technology – Information for Dissemination-9; Science and Technology- Technology Generated 8; Social Sciences 17.

PAMPAMANTASAN SENTRO NG WIKANG FILIPINO

Nagkaroon ng taunang programa sa Buwan ng Wika 2012. Ang dating direktor ng Panrehiyong Sentro ng Wikang Filipino (PSWF) ay ginawaran ng Komisyon sa Wikang Filipino ng Parangal sa Natatanging Kababaihan Gawad Sagisag Quezon na ginanap sa Bayleaf Hotel, Intramuros, Maynila noong ika-24 ng Agosto, 2012. Nagkaroon ng seminar-workshop na may temang: "Pagpapaunlad ng Kamalayan at Kasanayan sa Paghahanda ng Pananaliksik at mga Kagamitang Panturo sa Wika at Panitikan Salig sa K to 12 Kurikulum" sa pakikipag-ugnayan sa Trends & Techniques Resource Center and Training Services, Komisyon sa Wikang Filipino at Panrehiyong Sentro ng Wikang Filipino (PSWF) at Tarlac State University (TSU). Idinaos ito noong Oktubre 5-7, 2012 sa Alumni Center, Lucinda Campus, Lungsod ng Tarlac. Sa seminar na ito ay nakapagtatag ang PSWF ng pambansang samahang Ugnayang Filipino (UGFIL). Noong Disyembre 6, 2012, nagkaroon ng Launching ang Kapampangan Orthography sa Pampanga na dinaluhan ng pamunuan ng Komisyon sa Wikang Filipino (KWF). Naging tagapangulo ng NBC 461, kasapi ng Faculty Selection Board at Book Evaluation Committee. Sa taon ding ito ay muling pinagtibay ng Komisyon sa Wikang Filipino at Tarlac State University ang Memorandum ng Pagkakaunawaan. Nagkaroon rin ng seminar na may paksang "Sa Ika-149 na Taong Kadakilaan: Si Bonifacio sa Kahalagahan at Kagalingang Pangwika" sa pagtataguyod ng Komisyon sa Wikang Filipino (KWF), Panrehiyong Sentro ng Wikang Filipino(PSWF), Pamantasang Sentro ng Wikang Filipino (PSWF), Tarlac State University (TSU), idinaos noong Disyembre 12, 2012 sa Alumni Center, Lucinda Campus, Lungsod ng Tarlac.

DR. CHERUBIM F. VALERIO
Director

PROFESSIONAL DEVELOPMENT AND CONSULTANCY SERVICES

As a function of the PDCS Office, seminars/ trainings/ conferences have to be conducted for the professional enhancement of the TSU personnel and as income generating programs (IGPs) for the University to augment the general appropriations allocations. The following were conducted for the fiscal year 2012:

Seminar on Basic Customer Service for Healthcare Providers

This seminar was conducted in coordination with Tarlac Provincial Hospital (TPH). It was a requirement for the nurses who wanted to apply at TPH. There were five (5) batchesJanuary 11, April 11, June 27, September 24 and December 3) with a total of 246 participants.

Department of Education Trainings

The following trainings were conducted in partnership with the Department of Education (DepEd) where TSU was the service provider:

1. Teacher Induction Program. This was a training for the newly-hired teachers of DepEd Tarlac Province. It was held on January 27-29 and February 4-5 with 100 participants.
2. K-12 Training of Grade 7 Teachers. This was the first mass training of DepEd in its new Basic Education Curriculum which was exclusively for Grade 7 teachers. There were three (3) batches of participants. The first batch was held on May 10-14 coming from DepEd Tarlac Province. The second batch was on May 15-19 coming from DepEd Pampanga, Angeles City, San Fernando City, Pampanga while the third batch was on May 21-25 with participants from DepEd Tarlac Province, Tarlac City, Olongapo, and Zambales.

With the three batches, there was a total of 982 participants.

4th International Education Conference

This conference was designed to bring together academics from various education levels among participating countries. Resource persons were from USA, Korea, and Hongkong while most of the participants came from the DepEd and Teacher Education Institutions (TEIs) in the Philippines. This year's conference was held on May 16-18 with 226 participants.

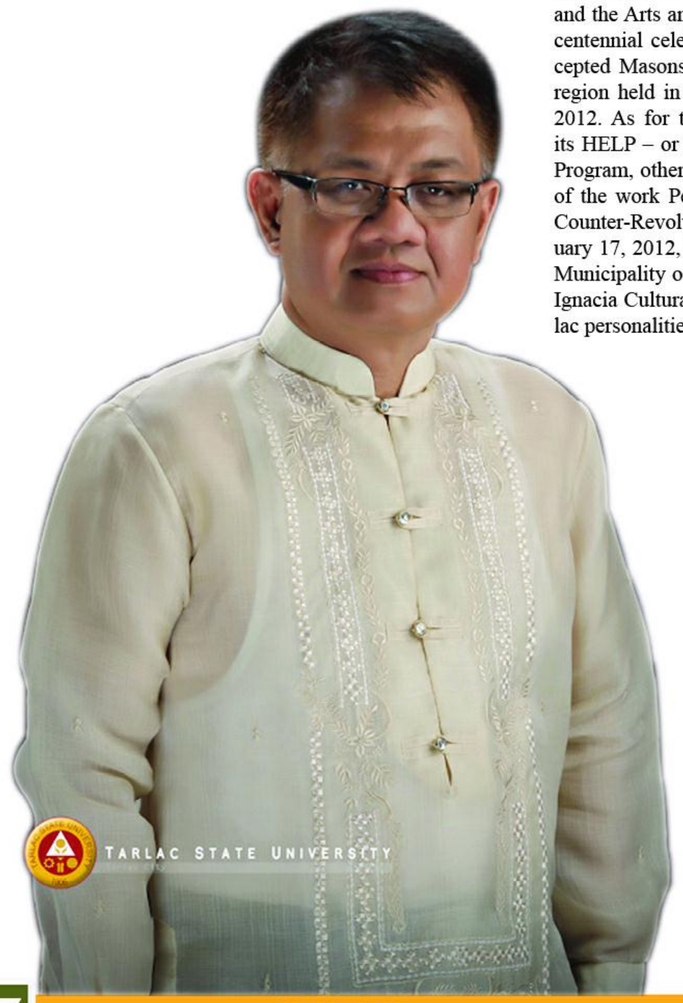
In-House-Seminar

The TSU Human Resource Management and Development Office had requested the PDCS Office to conduct a Seminar on Basic Customer Service for the fifty (50) TSU non-teaching personnel held on October 18,2013.

For the fiscal year 2012, PDCS Office had produced more or less a net income of 17%.

ENGR. ARLYN N. ANGCO
Director

CENTER FOR TARLAQUEÑO STUDIES



The Center for Tarlaqueño Studies's major accomplishments for the year 2012, based on its thrusts on Extension Activities (BATARISAN Program) was the holding of the regional conference on Local History Writing Seminar Workshop held on September 17-18, 2012 and which was co-sponsored with the National Commission for the Culture and the Arts and the provision of the keynote speech for the centennial celebration of the Grand Lodge of Free and Accepted Masons of the Philippines for the Northern Luzon region held in Lingayen City, Pangasinan on September 8, 2012. As for the CTS other program for research through its HELP – or Historical Enrichment through Local History Program, other major accomplishments were the publication of the work Pedro Pedroche, Partido de Agraviados, and a Counter-Revolution in Tarlac Province, 1898 – 1899, on January 17, 2012, in coordination with the ECJ Foundation, the Municipality of Santa Ignacia, Tarlac, and the SILAG or Sta Ignacia Cultural Society, and its continuous research on Tarlac personalities and events.

DR. LINO L. DIZON
Director

Presented the paper "Tourism, Heritage, and Nearby History" during the Tourism Management Conference of Angeles University Foundation, St. Cecilia's Auditorium, AUF, Angeles City, March 27, 2012.

Presentation of the lecture, "using the past to build the future: Tarlac, Heritage, and Nearby History (The Beginnings of Tarlac province, 1593-1873) during the International Museum Day, Museo ng Probinsiya ng Tarlac, May 24, 2012.

Centennial Lecturer for the Grand Lodge of Free and Accepted Masons of the Philippines, with the paper Centennial Lecturer for the Grand Lodge of the Philippines, for the Lecture RELICS AND MILESTONES: PHILIPPINE FREEMASONRY (francmasonería), LOCAL HISTORIOGRAPHY,AND DECONSTRUCTION-RECONSTRUCTION, 1912 and Beyond, Northern Luzon Region Multi-District Convention, Sison Auditorium, Lingayen, Pangasinan, September 8,2012

Presented the paper «Cavite, la joya gaditana del Mar de la China» The Libertarian Spirit of its 1812 Constitution and other semblances of Cadiz, Spain in Cavite, Philippines for the EL PUEBLO SOBERANO: National Conference on the 1812 Cadiz Constitution held at the La Consolacion University Philippines, Malolos, Bulacan on September 14, 2012.

Presented the paper LOCAL HISTORY WRITING: The Case for Upper Pampanga, for the Local History Writing Seminar Workshop for Region III, September 18, 2012 at the TSU AVR.

Resource Person on the History of Tarlac for the Iglesia ni Kristo Chronicles for Tarlac Province, INC TV, November 7, 2012, and shown on INC TV and NET 25.

Lecturer/ Resource Person on the topic "The Cultural Uniqueness of Central Luzon" for the Unang Daloy: Regional Conference for Visual Artists of Central Luzon, SM Baliuag City, Bulacan, October 3-5, 2012.

Resource Person for the Sagisag ng Mga Rehiyon ng Pilipinas Data Conference for Region III, National Commission for the Culture and the Arts, Manila, October 6, 2012.

Resource Person on the topic "Anak ng Bayan, Anak ng Buong Bansa" for the 149th commemoration of the Birth of Gat Andres Bonifacio as sponsored by the Komisyon sa Wikang Filipino and the Regional Center for Wikang Filipino, TSU Alumni Office, December 12, 2012.

UNIVERSITY PRODUCTION OFFICE

Every successful business leader has one single-minded purpose, create customers. Earning profits become a derivative then, and all other objectives are linked with satisfying customers and meeting their needs constantly, which calls for innovation and investment in R & D.

However, one should not forget the Internal Customers, that is, our own employees or people. They need to be nurtured well, managed with adequate respect and kept satisfied with monetary and non-monetary benefits. They are the backbone of a company and can help achieve the business's ultimate objective. Taking care of employees is the path to keeping the customers that successful business leaders create…

Keeping in mind that with the right attitude, one will have more successes, more profit and less stress.

Not knowing the customer well would mean not really knowing the business well.

DR. MA. SOCORRO D. VALDEZ
Director

GENDER and DEVELOPMENT

- Attended the 1st Women's Summit of the Young Women's Christian Association of the Philippines (WYCA) on March 17, 2012 in Hube Hall, Manila.
- Attended the Regional GAD Summit on July 5-6, 2012 at the NEUST Hostel, Cabanatuan City in compliance with CHED's commitment during the 1st CHED Higher Education Summit on Gender Issues held last October 11-12, 2012.
- Facilitated a series of seminars on "Mitigating Climate Change" for the TSU community on July 19 and 21, 2012:
  - July 19 am - with participants from Main and San Isidro Campuses
  - July 19 pm - with participants from Lab. School and Lucinda Campus
  - July 21 am - with participants from the 1st year NSTP students.
- Attended the National Seminar-Workshop on GAD Thrust and Directions in the 21st Century held on July 25-26, 2012 at the Technological University in Manila.
- Facilitated seminar on "RA 9710: Magna Carta of Women" on August 24, 2012 at the Engineering AVR. attended by a total of 114 faculty and employees.
- Child Care Center 15th Foundation Day on September 25, 2012 at theTSU gym.
- Provided a Lecture on Gender Concepts for the College of Education students on October 4, 2012 at the TSU Interfaith Chapel, Lucinda Campus.
- Child Care Center Pupils joined the SM Tarlac's United Nations competition on October 24, 2012 wherein the pupils bagged three major awards namely Mr. UN,, Ms. UN and School With Most Number of Pupils in National Costume.
- Attended "Women Forum to End Domestic Violence" on November 20, 2012 at SM Cinema Tarlac organized by the Tarlac City PNP-Women and Children's Protection Desk, Tarlac City Government, and Soroptimist International-Tarlac.
- Attended the Commission on Higher Education's "2nd Higher Education Summit on Gender Issues" on November 27-28, 2012 at UP Diliman, Quezon City.
- The office, in cooperation with the National Service Training Program (NSTP) provided a seminar on Violence Against Women and Children on December 7, 2012 to the mothers of Sitio Bacuit, Barangay Tibag, Tarlac City.

"Since the establishment of the Gender and Development Office in 2006, the Office has steadily made progress in ensuring a gender-friendly university and has been able to extend its services to the community as well. This is made possible through the gender-related activities conducted in partnership with the different offices of the university. To disseminate information on human rights, gender equality, and women empowerment, seminars on RA 9710 (Magna Carta of Women), Gender Concepts, and Anti-Violence Against Women and their Children (RA 9262) are regularly conducted. Also included are seminars on reproductive health to make the students aware of the causes and prevention of HIV Aids and seminars on Mitigating Climate Change.

The successful operation of the Child Care Center has helped the employees in the child-rearing difficulties and has developed and equipped children with the knowledge and skills they need to move up to the next level in their formal education.

With the continuous support of the TSU administration, the TSU GAD office is committed to work as the leading office of gender awareness and responsiveness to the university's institutional plans in consonance with the Philippine Plan for Gender Responsive Development, 1995-2025".

Students' Engagements

The *Guidance and Counseling Office* continued its services through the conduct of approximately 20 recollections for graduating students of the different colleges; assistance to the shifters and returnees during enrolment and one of the major activities which is the freshman orientation and study habits seminar held per college to welcome the students to university life. The counselors also served as resource speakers for different seminar workshops for private and public institutions in Tarlac. Not to be forgotten is Ms. Maria Sheila Garcia, Guidance Specialist, joining the roster of Registered Guidance Counselors in September 2012.

Meanwhile, the *Scholarship and Endowment Office* has been relentless in its effort to look for more scholarships for TSU students. Having served 1,750 (and counting) scholars the previous academic year, it sets its eyes on obtaining additional sponsorships from generous institutions and individuals.

The *Office of Student Development* has also accomplished noteworthy activities this year like the conduct of leadership seminars and teambuilding trainings for student leaders and student organizations, participation in relief operations and bloodletting activities of different agencies and organization. Geared toward the honing and discovery of a new batch of writers from the different colleges in the university, the Office had conducted various seminars (LAAB and LATHALA) on Journalism, as well as sent delegations of student writers to regional and national press conferences. To instill discipline and strengthen the students' moral fiber, the Office also conducted seminars on anti-hazing law, anti-sexual harassment act of 1995, solid waste management/climate change and other related topics.

The *Center for Culture and the Arts* had been one of the busiest offices in the university. Its services through the Dance Troupe and Choir were often requested by government agencies and non-governmental organizations within the province during their major activities or functions. For year 2012 the TSU Performing Arts received regional and national commendations for their participation in various cultural competitions. Likewise, the two cultural groups also found their way to international staging of performances in China and Thailand.

The *Dental Health Services* continued to provide assistance to our students by giving dental examination, filling, prophylaxis and extraction. They made sure that students who came in will have a better chance and opportunity for oral health.

The *Medical Services Center* served more than 12,000 students and employees in the university this year. They extended assistance not only during intramurals or emergency cases, but more so during the course of the entire academic year.

The *Office of the Library Services* found a new home in Lucinda Campus. The Gov. Jose V. Yap Library was inaugurated in August, and the students now have a bigger and a more comfortable area to do their readings and researches. The librarians who continuously attended seminars had been adept in the identification, purchase and labeling of resources that would best assist the students in their academic and course work. Furthermore, a lot of physical development has transpired in all campus libraries during the entire year to improve the services to students.

The *Office of the Sports Development* purchased equipment and materials to keep up with the growing need for instruction and practice of students in various fields of sports. Coaches, trainers and varsity players kept themselves abreast with the latest in the field of sports by attending seminars. Varsity players in different sports were also sent to regional and national competitions for training and exposure purposes.

The *Testing and Evaluation Center* administered psychological and assessment tests to students of the different colleges based on their needs. Included in its regular activities was going to different schools in the province to serve as resource speakers during career orientation seminars, thereby promoting the different courses of the university. The Office tasked to administer the TSU College Admission Test was able to attract more than 7,500 applicants for School Year 2013-2014 due to proper planning and implementation.

For TSU-PUBLIC EMPLOYMENT SERVICE OFFICE (PESO), its major activities were pre-employment seminars, personality development trainings and Job Fairs for graduating students of all collleges. But the bulk of the activities of the office were geared toward gaining prospective employers for the graduates. The office conducted several Career Information Seminars and adminidterd Interest Assesments to senior and junior high school.

PRESIDENT'S COMMITTEE ON CULTURE AND THE ARTS

June: Presented entertainment numbers during the TSUOrientation Program at TSU Gym, Araw ng Kalayaan Himig Pinoy and Sayaw Pinoy at SM City Tarlac's Event Center, Welcome Program for TSU Foreign students at the TSU Hostel and during the ECF Project Free Graduation Exercises held at the TSU Gym.

Represented Region III in PASUC National Cultural Festival: Won 1st place in Quiz Bowl, 3rd runner up in Ethnic Dance Contests held in PNU, Manila. Presented cultural dances during the SM City's Tribute to OFWs and participated in the SM Flash Mob Xmas Carol Singing.

GUIDANCE and COUNSELING CENTER

In line with the new organizational structure of the University in July of 2012, I was given the chance and opportunity to serve as the Director of the Guidance and Counseling Center. I was challenged with the increasing concerns and demands of every student in the University and at the same time overwhelmed with the trust and confidence bestowed upon me. It is considered as a rare privilege, a great responsibility and a learning experience to serve on a deeper level so as to contribute in the total development of students.

The Guidance and Counseling Center is an office that offers various opportunities for students to grow personally and professionally. It is our calling to guide our youth to the path of righteousness and help them face all the challenges and difficulties in life with confidence and fortitude. In my journey with students, it is noteworthy to point out that the strong support of the administration contributed to the significant realization of our goals and objectives which created a substantial and effective provision for delivery of the different guidance programs and services. Indeed, it strengthened the avenue in molding our youth to become responsible and productive citizens of the country.

TSU will continue to demonstrate dedication and commitment by adhering to the highest principle of professionalism in the field of guidance and counseling.

We care, we listen. Finally, we will always advocate students' success and development.

NIÑO B. CORPUZ, Ed.D.,RGC
Director

LIBRARY SERVICES

A still of Tarlac City and TSU Officials during the inauguration of the Hon. Jose V. Yap Library.

The newly constructed Hon. Jose V. Yap Library at the Tarlac State University Lucinda Campus is now open and fully functional. Its resources are on education, nursing and other related references.

Training and orientation on accessing the ProQuest Central, a multi-disciplinary foreign online database.

In its effort to serve the students, faculty and the TSU community, the Library acquired instructional resources such as books, magazines and journals and e-resources. But the inauguration of the new Hon. Jose V. Yap Library at the Lucinda campus is one of the highlights in this year's library activities. Installation of new facilities for the comfort of users like venetian blinds and curtains, chairs, sofas, tables, bulletin boards, bookshelves, charging counters, baggage counters, and other electronic facilities like computers for the internet and Philippine eLib section has also been accomplished as well as the acquisition and installation of new curtains at the Main Library.

In support for the improvement of Library Services, the Tarlac State University also hosted the orientation on accessing the ProQuest Central Database (an Online Database) wherein Librarians from different state universities in Regions 1, 2, 3, NCR, and CAR participated. With this, the said online database can be accessed at the Main and Unit Libraries for research purposes.

MS. VIRGINIA C. ANCHETA
Director

MEDICAL SERVICES

TSU Medical Services is a unit of the university designed to promote health awareness and provide immediate health care services to students, faculty and non-teaching personnel. It is envisioned that the University clinic could deliver the necessary health care services to the vast majority of the University population with utmost competence of its medical staff with the aid of up to date basic equipment.

Committed to its functions, in 2012 the Unit was able to promote preventive measures thru timely issuance of Health Advisories. It had identified prevalent illnesses/diseases in the University and initiated interventions to decrease morbidity and mortality. Being a responsive unit, it issued appropriate referrals to other specialty doctors when needed. Likewise, it responded to emergency cases and initiated first aid treatment to the clientele.

Regularly, it reviewed all (APE) results of employees and recommended further work ups.

It rendered physical examination for pre-employment, athletes for athletic competitions, and

provide screening procedures (sugar, cholesterol, osteoporosis screening) as part of the wellness drive of the unit. It also coordinated to other departments for medical assistance if the need arises.

The Medical Service Unit considers 2 of its strengths and pride to have a system of flow of patients from nurses to university physician; and competent medical staff to attend to students, faculty, non-teaching personnel and visitors of the university. The Unit also recognizes the need to formulate policies and guidelines in certain activities where medical service is warranted.,e.g. outside university activities, sports competitions, field trip, seminars and others.

The Unit plans to implement a Vaccine program and Medical interactive health programs in 2013.

VACCINATION

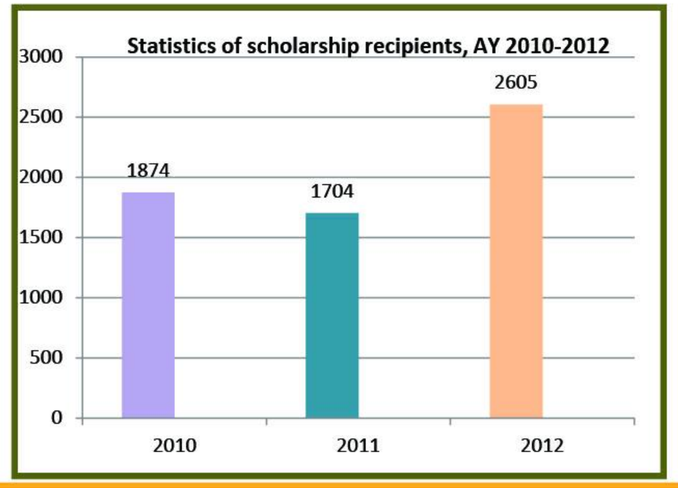
ENDOWMENT & SCHOLARSHIP

The scholarship program at Tarlac State University is the response to the President's call to empower the poor but deserving students and to bring them into the mainstream of the government's development agenda. The University Scholarship Office does not only aspire to convey the importance of education in the consciousness of the rural folks but also intends to provide them the necessary resources to pursue higher learning. This will lead them to eventually assume the greater task of nation building and to effectively participate in the country's economic activities.

Indeed, there is no better way of protecting the poor from becoming vulnerable victims of opportunism than providing them the basic ammunition against educational inadequacy. The strength of any nation lies with its people, whose success depends on proper education.

It is sincerely hoped that with the untiring dedication, enthusiasm and competence of the teaching staff, TSU will be able to develop a pool of well educated, technically equipped and properly motivated graduates who will assume the cudgels of continuing the pursuit of education. It is also expected that scholars once graduated will serve as agents of change who will catalyze the improvement of the economic and social status of the beneficiaries, their families and the community where they live.

ELSIE M. CANLAS, Ed.D.,RGC
Director



SPORTS DEVELOPMENT

"Sports …is the backbone of a physically fit and healthy nation," as implied by sports czars, sports specialists, sports mentors, athletes. TSU's Sports Development Office (SDO) strongly adheres to this dictum. SDO basically operates with its objectives to supervise sports programs, to manage sports practicum, and administer extension projects and competitions for regional, national and international levels. With due consultation and approval of the Sports Council, under the influential and committed leadership of the Vice-President for Student Affairs, SDO have brought laurels to the University.

This year's achievements for the office among others are the successful conduct of the 2012 Intramural Games; SCUAA III Olympics held at Ramon Magsaysay Technological University; active participation in the National State Colleges and Universities Athletic Association Cheer Dance competition in Dipolog City, Zamboanga and more tune-up games from other SUCs and private universities; and the yearly staging of the State Colleges and Universities Faculty Association Region III.

The Sports Development Office will always be supportive to the Mission, Vision and Programs of the University through various programs and projects for physical fitness, sports and wellness of our TSU family.

DR. NORBERTO C. JACINTO
Director

OFFICE OF ADMINISTRATIVE SERVICES

The Administration Office takes charge of the needs of all members of the TSU community, both
teaching and non-teaching staff. The Office sees to it that benefits are enjoyed while responsibilities are expected to be delivered by every employee of the institution.

Mainly, stewardship of this institution is hinged on this Office which functions based on principles of good corporate governance and integrity. All efforts are geared towards the transparent, efficient and effective delivery of services, such that public confidence and integrity of the institution are maintained within the Vision and Mission of the University.

Every member of the TSU community is expected to espouse the same principles as he discharges his duties bearing in mind that as individuals and as an institution, jointly must make efficient and accountable use of the resources entrusted to each one in order to transparently meet TSU's objectives.

Each one is also expected to adhere to University policies anchored on the laws that govern this country, as well as the code of conduct and ethics of the employees.

DIR. LORNA L. DIMATULAC
Administrative Officer

HUMAN RESOURCE MANAGEMENT & DEVELOPMENT

The most important asset in any workplace is its workforce. That is why the Human Resource Management and Development Office has always been the University's partner in ensuring that there are enough competent personnel with appropriate skills to perform jobs effectively and efficiently.

To date the University has the following workforce:

Permanent Administrative Personnel	97
Permanent Academic Personnel	252
Lecturers	174
Job Order	213

The Office also sees to it that the University's workforce is provided with benefits and privileges. For the Year 2012, the HRMD Office conducted five (5) in-service trainings/seminars/workshops in coordination with other offices in the university, which are:

Revised Rules on Administrative Cases in the Civil Service
IRR of RA 9470 known as the NAP (National Archives of the Philippines)
Cascading of the Performance Based Bonus (PBB)
Training on Basic Customer Service Satisfaction for TSU Non-Teaching Personnel
Gender Sensitivity Orientation

The 2012 Service Awards Ceremony led by the HRMD Office at the TSU Gymnasium had a remarkable attendance not only of the Service awardees by also by retired employees of the University held on November 29, 2012. There were four Aluminum awardees (10 years) in TSU service; nine for Crystal awardees (15 years); eleven China awardees (20 years); nine Silver awardees (25 years), and thirteen Pearl awardees (30 & above years). During the ceremony, nine employees who retired during the current year were also recognized; Dr. Dalisay V. Rigor, Vice President for Administration (a faculty of the College of Public Administration and Local Government); Dr. Celia R. Dizon, Dr. Consuelo F. Valerio and Dr. Ely O. Alamo (all from the College of Arts and Social Sciences), along with Primitivo B. Timbol, Tranquilino A. Agdeppa, Anastacio B. Pineda, Romeo P. Macapagal and Roberto M. del Rosario (all from the Non-teaching force). A Posthumous Award for the late Ms. Remelyn Mendoza was handed over to her family.

LEIMINA E. ALCONEL
Director

2012

EVENTS

2012 GRADUATION

23rd Graduation Rites

In 2012, TSU proudly produced 2,225 graduates, 55 of them received honors – 8 *Magna cum laudibus*, 44 *Cum laudibus* and 3 from the Laboratory School.

TSU's strategically-trained graduates are ideally situated to make a difference. Most of our graduates end up in the academe, in research, in business and entrepreneurial careers, and public service. TSU wants to make sure that generally speaking, its undergraduate, masters, and philosophically-trained PhDs can make as much of an impact as possible.

Hon. Alexander D. Pascual, a prominent business tycoon and a Professorial Chair Donor, was among the Guests of Honor during the 23rd Graduation Ceremonies.
