I. Overview:

The Tarlac State University is committed to continually strive for global competitiveness and excellence in the delivery of instruction, research, extension (training and consultancy), and administrative support services, compliant to regulatory and statutory requirements for the utmost satisfaction of its valued customers.

Consistent with the University's commitment to satisfy clientele and its pursuit of continually quality improvement, it has established feedback and complaints mechanisms under the provisions of Section 20 of the Republic Act (RA) No. 11032 or the Ease of Doing Business and Efficient Government Service Delivery Act of 2018 and Section 3 of the Implementing Rules and Regulations (IRR) of the said RA *"All agencies shall embed feedback mechanisms and client satisfaction measurement in their process improvement efforts. The agency shall report to the Authority the results of the Client Satisfaction Survey for each service based on the guidelines to be issued by the Authority."*

As stated in the Anti Red Tape Authority (ARTA) Memorandum Circular (MC) No. 2022-05 dated 20 September 2022 (Guidelines on the Implementation of the Harmonized Client Satisfaction Measurement as amended by ARTA MC No. 2023-05, dated 08 June 2023), which requires the conduct of Client Satisfaction Measurement (CSM) through the collection of client satisfaction feedback involving all clients with completed transaction, for all services offered by the government agency.

To aid all colleges, offices, and units of the University in determining the effectiveness of streamlining and process improvements, and institutionalizing Service Quality Dimensions (SQD), the institutionalized Citizen/Client Satisfaction Survey (CCSS) was revised and adopted a harmonized and standardized framework in measuring client satisfaction using the paper and electronic Harmonized Client Satisfaction Measurement (CSM) in compliance with the above mentioned applicable statutory and regulatory requirements.

II. Scope:

The university's institutionalized Citizen/Client Satisfaction (CCSS) form was first implemented in FY 2022 until the 2nd Quarter of FY 2023. It was used to survey the transacting clients both physical and via online platform of every offices, units, and colleges in the Main Campus, San Isidro Extension Campus, and Lucinda Extension Campus.

The university's institutionalized CCSS forms was used to survey covering the eight (8) Service Quality Dimension to capture the total citizen/client experience, expectations and satisfaction which are as follows: *(See Appendix A.1. Institutionalized CCSS form from August 2022 to 2nd Quarter 2023 and Appendix B.1. Results per service for the period of January to June 2023)*

1. Responsiveness
2. Reliability (Quality)
3. Access and facilities
4. Communication
5. Costs
6. Integrity
7. Assurance
8. Outcome

Furthermore, during the 3rd Quarter of 2023 the Harmonized Client Satisfaction Measurement (CSM) was adopted and made effective in congruence to MC No. 2023-05 set forth by the Anti Red Tape Authority.

The university used the harmonized survey questionnaire covering three (3) questions related to the Citizen's Charter, one (1) question related to the client's overall satisfaction with the service availed of, and eight (8) questions related to Service Quality Dimensions (SQD). It was administered every after completion of the service/s availed to both external and internal clients of different offices, units, and colleges in the Main Campus, San Isidro Campus, and Lucinda Campus.

Of the 105,163 total transactions, various clients are invited to participate in the CSM survey, 5,161 internal and external clients were able to answer and participate in the survey. This resulted in a 5% response rate for the period of July to December 2023.

The **Table 1** summarizes the following services the offices, units, and colleges of the university surveyed, the total collected responses, the recorded total transactions, and the response rate per service.

In aggregate, 62 external services received a response rate ranging from 50% to 100%, while 145 external and internal services received a response rate of 0% to 50% for the period of July to December 2023. The low response rate for the identified services usually occurs as a result of the client failing to respond to the survey that was given after the completed transaction. This may imply that most of the respondents are not yet fully aware of the implementation of the survey. That is why there is a need for awareness and orientation for the clients through the employees of TSU due to the full implementation of

the harmonized CSM tool and the importance of participating in the survey in voicing out their experience. Ensuring that the clients are responding to the given survey.

Meanwhile, **Table 2** shows the list of the following external and internal services with no recorded clients for the period of July to December 2023.

Thirty-four (34) out of two hundred and thirty-four (234) (14.53%) internal and external services had no recorded clients and don't have any transactions for the specified period.

III. Methodology:

For the physical transactions during the period of July to December 2023, feedback are collected in two ways:

1. The Client Satisfaction Measurement (CSM) Survey form is provided immediately after the delivery of services and completion of each transaction. The transacting office personnel will instruct the client to accomplish the form and drop it at CSM box available at various offices or at the designated Public Assistance Complaints Desk (PACD), or
2. Client has an option to scan the CSM QR Code posted at the Citizen's Charter Information Billboard (CCIB) of various offices to access the electronic form of the survey.

For online transactions, the transacting office personnel will provide the link containing the online CSM after the delivery of services and completion of each transaction.

The Quality Management Unit (QMU) is in-charge of monthly collection and encoding of the result from the electronic form and the accomplished CSM forms in the three campuses (Main Campus, Villa Lucinda Extension Campus, and San Isidro Extension Campus). Moreover, the generation of CCSS report was done monthly by QMU and transmitted to the offices of the University President, Vice Presidents, and Human Resource Development Management.

The 8 SQD questions were scored using a 5-point Likert Scale as follows:

Scale	Rating
5	Strongly Agree
4	Agree
3	Neither Agree nor Disagree
2	Disagree
1	Strongly Disagree

The Overall score for the 8 SQDs were computed based on the following formula:

$$\text{Overall Score} = \frac{\text{Number of 'Strongly Agree' answers} + \text{Number of 'Agree' answers}}{\text{Total Number of Respondents} - \text{Number of 'N/A' answers}}$$

The interpretation of the results are as follows:

Percentage	Rating
Below 60.0%	Poor
60.0% - 79.9%	Fair
80.0% - 89.9%	Satisfactory
90.0% - 94.9%	Very Satisfactory
95.0% - 100%	Outstanding

IV. Data and Interpretation

A. Demographic Profile

The demographic profiles of the internal and external respondents, including age, sex, and client type, are summarized in the following table.

The age range of **20 to 34 years old** has the largest frequency, with 60% external and 56% internal clients, which is equivalent to **56 percent** of the overall respondent. Followed by **18 percent** of overall respondents, which consist of 18% external and 19% internal clients, who **did not specify their age range**. This figure is nearly exactly equal to the number of respondents **ages of 19 years old or lower**, with 18% external and 17% internal clients, who accounted for **17 percent** of the overall respondent. The age range of **35 to 49 years old** accounted for only **6 percent** of respondents, of whom 4% were external clients and 6% were internal. Only **2 percent** of the overall respondents, consist of 0% external and 2% internal clients, were between the ages of **50 to 64 years old**, while there were no respondents between the ages of **65 years old** or higher for external client but only 1% for internal client, resulting to **0 percent** of the overall respondents.

The age distribution of all respondents, internal and external, is shown in the table below.

Table 3: Demographic Profile by Age

D1. Age	External	Internal	Overall
1. 19 or lower	18%	17%	17%
2. 20-34	60%	56%	56%
3. 35-49	4%	6%	6%
4. 50-64	0%	2%	2%
5. 65 or higher	0%	1%	0%
6. Did not specify	18%	19%	18%

Meanwhile, almost half of the external and internal clients reported their gender as female, or 47% of the overall respondents and only 39% as male, while the 14% did not specify. In other words, female clients contributed more to the respondent data set. The table 4 shows the male and female external and internal respondents in percentages.

Table 4: Demographic Profile by Sex

D2. Sex	External	Internal	Overall
1. Male	40%	39%	39%
2. Female	47%	47%	47%
3. Did not specify	13%	14%	14%

Analyzing the demographic profile by customer type, it's evident that the majority of the respondents are students, accounted for 57%, which consist of external students or alumni, transferees or shifters from other colleges or universities, and internal students that are currently enrolled at the university. Followed by 29% who identify themselves as internal clients or TSU employees. Government Agencies (2%) and Business Entities (2%), which include suppliers, bidders, and contractors, had the fewest respondents, while 10% of the overall respondents did not specify the type of client they were.

Table 5 shows the distribution of the respondent by customer type.

Table 5: Demographic Profile by Customer Type

D3. Customer Type	External	Internal	Overall
1. Students	61%	56%	57%
2. Internal	0%	33%	29%
3. Business	12%	0%	2%
4. Government Agency	16%	0%	2%
5. Did not specify	11%	10%	10%

B. Count of CC and SQD results

84.48% of the respondents in external services and internal services know what a Citizen's Charter (CC) is and saw the existence of a Citizen's Charter in the transacting office. While 7.96% learned the existence of Citizen's Charter only when they saw the transacting office's Citizen's Charter.

Meanwhile, among those that knew the CC, 85.43% of external and internal clients were able to easily see the transacting office's Citizen's Charter and 90.48% of them could use it as a helpful guide during their transaction. **Table 6** summarizes the respondents' awareness of the Citizen's Charter.

Table 6: Citizen's Charter (CC) Awareness Summary
